Functionality:

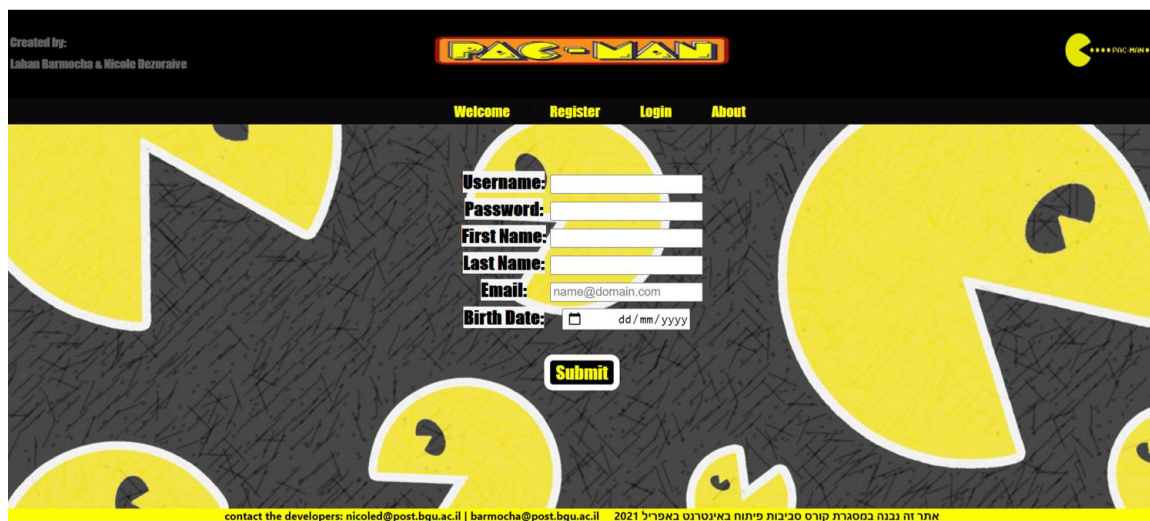

1. We added life (a picture of a heart) on the board. When the Pacman eats the heart, one more life is added to the game.
2. We added a clock on the board. When the pacman eats the clock, 20 seconds are added to the game.
3. Extra: We added a sound effect and picture when the pacman and monster collide, and we added a sound effect at the end of the game.
4. We have added a male / female Pacman image that appears according to the gender selected by the user on the left side of the game page.
